The Tech Adept's Moves

- **Universal Programmer:** (You have this move by default) When you need a new piece of equipment, roll +Wits. On a hit you make it. On a 10+, it works and keeps working. On a 7-9, it will only last for the scene. In either case, choose a quirk:
 - The device works much more slowly than expected
 - The device requires more of a resource than expected
 - The device has a side effect when used
- **Read the Web of Fate:** When you enter the virtual world to Read the Web of Fate, roll +Grace. On a hit, you can determine the degrees of separation between two objects or people. On a 10+, you can also get a general idea of the path between them.
- **Hacking:** When you Outmaneuver, Outpace, or Outfox in the virtual world, you may roll +Wits instead of +Grace
- **Ghost in the Machine:** When you Enter the Virtual World Physically, you may bring other willing Mages along, and exit at any terminal you can find.
- **Things Speak:** When you examine an interesting technological or magical object, roll +Wits. On a 10+, you may ask up to 3 of the following questions, on a 7-9, ask 1.
 - What strong emotions have been most recently associated with this?
 - What's wrong with this, and how might I fix it?
 - How frequently has this been handled?
 - Where did this come from?
 - How might this be dangerous?
 - Who designed this?
- **Percussive Maintenance:** When you Impose Your Will on a machine, roll +Will. It works better. On a 10+, tell the GM how. On a 7-9, the GM will tell you how. On a 6-, the GM will tell you how, and why this is terrible for you.
