## The Tech Adept's Moves

- Universal Programmer: (You have this move by default) When you make a new piece of equipment, roll +Wits. On a hit you make it. On a 10+, it works and keeps working. On a 7-9, it will only last for the scene. In either case, choose a quirk:
  - The device works much more slowly than expected
  - The device requires more of a resource than expected
  - The device has a side effect when used

<b>Read the Web of Fate:</b> When you <b>enter the virtual world to</b>
Read the Web of Fate, roll +Grace. On a hit, you can
determine the degrees of separation between two objects of
people. On a 10+, you can also get a general idea of the path
between them.

☐ Hacking: When you Outmaneuver, Outpace, or Outfox in the virtual world, you may roll +Wits instead of +Grace

☐ Ghost in the Machine: When you enter the Virtual World physically, you may bring other willing Mages along, and exit at any terminal you can find.

☐ Things Speak: When you examine an interesting technological or magical object, roll +Wits. On a 10+, you may ask up to 3 of the following questions, on a 7-9, ask 1.

- What strong emotions have been most recently associated with this?
- What's wrong with this, and how might I fix it?
- How frequently has this been handled?
- Where did this come from?
- How might this be dangerous?
- Who designed this?

□ Percussive Maintenance: When you Impose Your Will on a machine, roll +Will. It works better. On a 10+, tell the MC how. On a 7-9, the MC will tell you how. On a 6-, the MC will tell you how, and why this is terrible for you.

■ When you and another character exchange a moment of humanity, they speak to you as if they were an interesting technological or magical object (whether or not you have the move). Treat it as rolling a 10+ and ask up to 3 questions from the list. If you ask more than 1 question, you speak back to them in the same way, and they may ask up to 3 questions of the same list.
